PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and Technical Leader with 9 years of experience across fintech, ERP, manufacturing, and government sectors. Built and shipped platforms used by 500+ businesses. Delivered measurable outcomes: 18% CTR increase, 36% traffic growth, 35.4% efficiency gains, and 90% reduction in manual workflows via AI automation (Anthropic Claude, OpenAI). Core stack: Laravel, React/Next.js, Node.js, PostgreSQL. Experienced in leading cross-functional teams, owning the full product lifecycle from scoping to live operations, and integrating AI into production systems.

PROFESSIONAL EXPERIENCE

Marketing and Technology Manager

Feb 2025 - May 2026

Bitunix Fintech LLC, United Arab Emirates

- Built the Bitunix MarTech Dashboard: a full-stack internal analytics platform (Laravel 13, Next.js 16, PostgreSQL, Redis, BigQuery) unifying Google Search Console, GA4, and the Partner Portal into a 9-stage conversion funnel.
- Fixed a silent GA4 pagination bug that expanded campaign visibility from 293 to 1,791 unique source/medium/campaign combinations. Recovered 56% of undercounted affiliate signups via a Partner API fix.
- Built a GPT-4o AI report generator in EN/ID/ZH with PDF/DOCX export, eliminating 8+ hours/week of manual reporting.
- Integrated Anthropic Claude and OpenAI into 3 internal workflows. Reduced content production time by 75% and automated 15+ repetitive tasks.
- Architected a MarTech stack (CRM, GA4, Meta, TikTok, Twitter Ads) with automated UTM tracking and attribution. Led an 8-person support team, achieving a 95% satisfaction rate and 60% reduction in platform downtime.

Product Owner & Sole Engineer, PMHelper

2026

Project Management Platform, pm.cirrus-hub.net

- Built and operate a production project-management platform for an internal team, replacing an abandoned open-source tool. Shipped 40+ versioned releases in 2 months across web, REST API, mobile (Expo), and AI surfaces.
- Delivered a full RBAC system (6 roles, 69 permissions), a 15-status QA-enforced ticket pipeline, OKR/KPI performance reviews, daily/weekly reports, and customer feedback intake.
- Built real-time Kanban and a 1-on-1 messenger with embedded Jitsi video calls and AI meeting summaries, an AI chatbot grounded in project knowledge, and a Claude-compatible MCP server.
- Solely responsible for product scoping, engineering, deployment, and live operations (Hostinger VPS, domain migration, SMTP, monitoring).

Founder & Sole Engineer, KlindrOS

Feb 2025 - Present

Personal product (marketing intelligence platform), in active development for commercial release

- Designed and shipped KlindrOS, a multi-tenant marketing intelligence platform with 26 modules including multi-touch attribution, ROI engine, CDP, AppsFlyer mobile attribution, and GPT-4o AI insights.
- Stack: Laravel 11, Next.js 16, PostgreSQL, React Native (Expo). Delivered web, iOS, and Android with a shared backend and multi-tenant data isolation.
- Built a real-time analytics pipeline benchmarked at 1.55B events/day on a single VPS with self-healing fault recovery and circuit breakers.
- Authored a 294-endpoint OpenAPI 3.x spec, a bilingual (EN/ID) 14-module user guide, and a tenant QA suite. Anchored Viu (regional OTT) as launch client.
